Esmer Eshraty

Full-Stack Developer · Laravel · React · Next.js

Baku, Azerbaijan (UTC+4) · Open to remote · +994 50 334 45 49 · esmereshraty@gmail.com · linkedin.com/in/esmereshraty · github.com/esmerquenn · mi-portafolio-pi-five.vercel.app

SUMMARY

Full-stack developer with 2.5+ years of commercial experience building e-commerce platforms, CRM/ERP systems and business websites. Strong in **Laravel** on the backend and **React / Next.js** on the frontend, with hands-on experience in payment and third-party API integrations, technical SEO and performance optimization. Owns technical decisions end-to-end, from data modeling and API design to production-ready UI, and is growing toward a software architecture role. Uses AI-assisted workflows (Claude Code) daily to ship faster.

EXPERIENCE

Full-Stack Developer — INI Company, Baku, Azerbaijan — May 2025 – Present

- Develop and maintain CRM & ERP modules for logistics companies: parcel tracking, fleet management, reporting dashboards and role-based access control.
- Designed the architecture of a multi-integration e-commerce platform in Laravel: database schema, API structure and the integration layer for a bank payment gateway, Meta Pixel / Google Tag Manager tracking and geo-based language detection.
- Improved technical SEO and page speed of the company's e-commerce platform.
- Design REST APIs (Sanctum, Swagger/OpenAPI) consumed by web and mobile clients; implemented push notifications with Firebase Cloud Messaging.
- Handle production releases and hotfixes via Git and SSH on Linux servers.

Full-Stack Developer — Freelance, Remote — 2025 – Present

- Lead web projects end-to-end as the sole engineer: requirements, system and database design, Laravel backend, Next.js frontend, admin panel and client handover (see *mainer.az* and *caucasync.com* below).

Frontend Developer — Robyte, Remote — Feb 2024 – Apr 2025

- Modernized legacy websites with responsive redesigns and GSAP / Framer Motion animations.
- Built data-heavy dashboard UIs with React, TypeScript, Redux Toolkit and shadcn/ui, focusing on clean, reusable component architecture.

SELECTED PROJECTS

mainer.az — Furniture & home e-commerce · Freelance — Laravel, Next.js, MySQL

Designed the database schema from scratch and built the whole store solo: API architecture, fast product search, 3-level nested category system, token-based cart & wishlist, WhatsApp ordering flow and admin panel.

caucasync.com — Corporate website · Freelance — Next.js, Laravel

Corporate site for a food-industry distribution company, with a Laravel backend for managing content.

parfumedeparis.az — Perfume e-commerce — Next.js, Medusa.js, TypeScript

Full-stack development of product catalog, cart and checkout.

Earlier: ePromo (lottery admin panel & landing, React + Laravel) · 1Sigorta.az (insurance portal with online application forms, React + Node.js/Express + MySQL).

SKILLS

Backend	PHP, Laravel, Eloquent ORM, REST APIs, Sanctum, Swagger/OpenAPI, Filament, Backpack, Yii2, Node.js, Express.js
Frontend	JavaScript (incl. Vanilla JS), TypeScript, React, Next.js, Redux Toolkit, Tailwind CSS, shadcn/ui, MUI, Ant Design, GSAP, Framer Motion
Architecture	Database schema design, REST API design, third-party integration design, MVC
Data	MySQL, MongoDB
Integrations	Payment gateways, Firebase Cloud Messaging, Meta Pixel / GTM, third-party REST APIs
SEO & Perf.	Technical SEO, Core Web Vitals, SSR/SSG
Tools	Git, Linux/SSH, Docker (working knowledge), CI/CD basics, PhpStorm, Postman, Claude Code (AI-assisted development)

EDUCATION & CERTIFICATIONS
